

EMA MARINHO

BSc in Biology (FCUP)

Having finished my degree in Biology at FCUP, I'm looking forward to develop software development skills in the future.

I'm currently the Coordinator of the Recreational and Cultural Department of the University of Porto Biology Students' Group (NEBUP), leading a team of 14 people.

I've been a member of FCUP's university volleyball team since September 2021 and I'm also particularly interested in writing poems, having published my first book "Horas Tardias" in May last year.
